## **PRESS RELEASE**

### **Executive Aircraft Maintenance (EAM) Receives Honeywell Authorization for TPE331 Turboprop Engine Overhaul**

*Executive Aircraft Maintenance (EAM) of Scottsdale, AZ has received Overhaul Authorization for the TPE331 Engine by Honeywell International Inc. EAM's Anchorage, AK facility retains its status as a Honeywell Authorized TPE331 Major Maintenance facility. Both EAM facilities are also Honeywell Authorized for TFE731 and General Aviation APU service.*

*EAM was established in 2002 as a division of Copper State Turbine Engine Company. EAM and its sister company, Glendale Aero Services, offer a broad array of General Aviation engine, airframe, avionics, and aerospace machining services to support customers in 24 countries, from its locations in Arizona and Alaska.*
